

What is our High Performance Pathway?

House → Prospects → Selects → Knights

- Players start in 5U and spend their first 5 seasons playing in House League.
Everyone can play House League
- We then have transition years from 11U onwards where we start developing them in high performance athletes while still supporting social development in the sport.
This is 11U Prospects.
- Some players may spend more years playing both Knights and House, this is where the high performance development program continues for 13U and 15U players.
Selects is meant for the 13U and 15U player
- Some players may transition directly to a single season team and play on a Knights team from their first 13U season playing primarily in the HPP for the next 8 seasons.

This is Knights 13UAAA, 15U AA, 18U AAA
